**UNIVERSITY OF WISCONSIN - MADISON
CAMPUS MASTER PLAN 2005**

TABLE OF CONTENTS

<u>Chapter One – Introduction & Background</u>	1
A. Chancellor’s Vision	1
1. Chancellor’s letter	
2. Overall mission of the University	
3. Coordination with campus strategic plan	
B. Campus Overview	5
C. Need for a Campus Master Plan	5
D. History of Campus Plans at the University of Wisconsin-Madison.....	7
E. Goals of the 2005 Campus Master Plan.....	10
1. Sustainability	
2. Community, Academic and Research Connections	
3. Student Life	
4. Buildings and Design Guidelines	
5. Open Space	
6. Transportation and Utilities	
F. Major Areas of Study in 2005	12
1. Buildings	
2. Open Space	
3. Transportation	
4. Utilities	
<u>Chapter Two – Process</u>	13
A. Outreach and Coordination	14
1. List of Working groups	
2. Constituency Groups Met with During the Planning Process	
3. Coordination with On-Going Local Planning	
B. Phases of the Study	18
C. Plan Approval and Future Use.....	19

Table of Contents**

<u>Chapter Three – Observations & Analysis</u>	21
A. Historical Development of the Campus	21
1. History Diagrams	
2. Historical Growth Patterns	
3. Historic Preservation Planning	
B. Cultural Landscape Resources.....	46
C. Natural Systems	49
1. Topography	
2. Vegetation	
3. Soils	
4. Drainage	
5. Views	
6. Open Space	
7. The Lakeshore Nature Preserve	
D. Land Holdings.....	58
1. Main Campus Lands, Land Acquisition and Campus Development Plan Boundary	
2. Dane County Property	
3. Other Non-Contiguous Property	
E. Built Systems	63
1. Existing Land Use	
2. Existing Open Space Structure	
F. Existing Transportation Systems	65
1. Pedestrian Walkways	
2. Roadways	
3. Parking Facilities	
4. Mass Transit Options	
5. Bicycle Routes, Paths & Lanes	
6. Mopeds & Moped Parking	
7. Van and Car Pool Program	
G. Utility Systems.....	79
a. Existing facilities on campus	
b. General Condition Report of the utility systems	
1) Steam & Condensate	
2) Chilled Water	
3) Compressed Air	
4) Primary Electrical & Signal	
5) Information Technology (fiber optic lines, etc.)	

**University of Wisconsin-Madison
2005 Campus Master Plan
Table of Contents**

6) Sanitary Sewer	
7) Domestic Water	
8) Storm Sewer	
H. Space Needs/ Expendable Buildings Analysis	81
I. Current Sustainability Initiatives	85
J. Summary of Observations.....	88
<u>Chapter Four - Concept Development</u>	89
A. Planning Principles	89
1. A Spectacular Setting	
2. Enhancing Experience of Place	
3. Protecting Our Environment	
4. Developing Connections	
5. Edges and Boundaries	
6. Our Regional Community	
B. Concept Diagram.....	91
C. District Studies and Detailed Concept Plans	93
<u>Chapter Five - Final Plan & Phasing</u>	107
A. Master Plan Goals.....	108
B. Campus Master Plan Recommendations	109
1. Proposed Land Use Map	
2. Master Plan of Entire Campus	
3. West Campus Area	
4. Lakeshore Campus Area	
5. North Campus Area	
6. South Campus Area	
Summary Chart of Proposed Building Sites by Neighborhood	130
C. Master Plan Components	133
1. Introduction	
2. Proposed Land Use Plan	
3. Proposed Open Space Structure	
4. Entries, edges, and boundaries	
5. Long Range Transportation Master Plan Summary	
a. Traveling to and from the campus	
b. Traveling around on the campus	

**University of Wisconsin-Madison
2005 Campus Master Plan
Table of Contents**

6. Utilities Master Plan Summary	
D. Phasing of the Campus Master Plan	144
1. Building Projects	
2. Open Space Projects	
<u>Chapter Six – Campus Design Guidelines</u>	154
A. Introduction	154
1. Purpose of Design Guidelines	
2. Principles applied to the master plan	
a. Traditional Collegiate Campus	
b. Urban Collegiate Campus	
3. Design Review Board & Project Approval Process	
4. Sustainable Design Guidelines Summary	
B. Campus Neighborhood Design Districts	156
C. Building Siting and Massing	159
1. Setbacks / Build-to Lines	
2. Building Massing and Height	
D. Architectural Guidelines	160
1. Building Typology	
2. Scale and Proportion	
3. Façade Organization	
4. Building Elements	
5. Building Materials	
6. Sustainability	
7. Reference Utility Section	
E. Universal Design	163
F. Campus Open Space Design	163
G. Transportation Design Guidelines	166
1. City Streets	
2. Campus Streets	
3. Primary/Collector Streets	
4. Local Street	
5. Pedestrian Circulation	
6. Parking Lots & Structures	
7. Bicycle Parking Facilities	
8. Moped Parking Facilities	

**University of Wisconsin-Madison
2005 Campus Master Plan
Table of Contents**

9. Bus Shelters

H. Utility Design Guidelines168

 1. Existing Building Utility Guidelines

 2. Suggested Guidelines for Utility Sustainability and System Growth

 3. Distribution Corridors and Above Grade Structures

Chapter Seven – Conclusion 172

 A. Summary Statement172

 B. Overview of Main Themes.....172

 1. Master Plan Goals

 2. West Campus

 3. Central Campus

 4. East Campus

 5. Buildings

 6. Open Space

 7. Transportation

 8. Utilities

 C. Next Steps & Priority Areas180

 D. Unresolved Issues182

 E. Updates Since 2005183

Chapter Eight – Acknowledgments 186

Appendix

 2005 Long Range Transportation Plan (rev. 2007)

Other Available Planning Documents

 2005 Utility Master Plan

 2005 Cultural Landscape Project Report

 2006 Lakeshore Nature Preserve Master Plan

 2006 Housing Master Plan

 2006 Wisconsin Union Master Plan

 2007 Recreation Sports Master Plan

 2007 Athletics Master Plan
